

Project template for the Interventional Centre

1. Front page

- Project title
- Project leader
- Participants
- Affiliations: Department/ Institute
- Contact addresses: URL, e-mail
- Keywords

2. Introduction

- Background/history
- Traditional methods
- Recent results/ development
- Main aim of the study/ Hypothesis

3. Material and methods

3.1 Research Design

- Qualitative/quantitative study
- Prospective/Retrospective study
- Descriptive study
 - Interview/Survey
 - RCT

3.2 Ethical Aspects:

- Regional Ethical Committee approval
- Informed Consent
- Written Patient Information

3.3 Methodological Issues

- Equipment
- Methodology
- Statistical approach
 - Non-Parametric statistical analysis
 - Parametric statistical analysis

3.4 Implementation

- Clinical Protocol
- Biomedical equipment needed
- Staff training/educational and preparatory issues
- Definition of resources from the participating departments
- NCSP/ICD-10/RIS- codes

3.5 Timeframe and milestones

- Planning
- Implementation
- Analysis
- Evaluation
- Publication

3.6 Financial Plan

- Intramural financing
- Extramural financing

4. References
